Dear Community Project Batch Students,

Please refer to the following link for the **updated Community Project PPT template**:

🔗 <https://docs.google.com/presentation/d/1kEMv1nnd64RAhH1IZ9oaez3KKBV-OsHU/edit?usp=sharing>

All batches are required to follow **one common format and design** for the Community Project presentations.

Important Instructions

1. Please **download the PPT from the above link** and use it as the **master template** for your respective batch.
2. The **same template, format, and design must be followed by every batch**.
3. Everything in the template should be followed consistently, including:
 - Font style and size
 - Headings and sub-headings
 - Alignment
 - Spacing
 - Slide layout
 - Colours
 - Text formatting
 - Image placement
 - Overall design and structure
4. **Do not create a new design or use a different PPT template.**
5. You may **delete the previously shared/older version of the PPT** and use this updated template.
6. The **PPT should be crisp, concise, and presentation-oriented**, containing only the key information required for presentation.
7. The **Community Project Report should be prepared in a detailed and comprehensive manner**, as instructed earlier.
8. The PPT and Report should be **consistent with each other**, and all project-related information should be accurately reflected in both.
9. Before submission, carefully verify the **content, formatting, alignment, spelling, figures, tables, images, and overall consistency**.

In short, download the PPT from the link and follow the template exactly — including the font, style, alignment, layout, formatting, colours, and overall design.

This common format is to be followed by **all batches without deviation**.

Final Important Note

The **Community Project Report and PPT will first be verified by the Project In-Charge**. Only after the **report and PPT are reviewed and approved**, the respective batch will be permitted to attend the **Panel Review**.

You can check the **approval status of your batch through your login portal**:
